

Chris Mendes| Timeless Motor Group | 2010 E92 M3

Biography:

Chris came into the scene in 2004 with his 7th generation Honda Accord coupe. With the coupe he had an extensive list of modifications that took it from a daily driver to a vehicle that fascinated many with its clean lowered look courtesy of Tein coilovers and some beefy 5zigen wheels. Inside the cabin, he kept his passengers comfortable with a 7 inch LCD custom set up linked to a Playstation underneath the passenger seat.

As much as he loved making his Honda unique, his true goal was to own a BMW M3. That opportunity came in 2010 with the purchase of his E92. As a lifetime auto enthusiast, Chris once again has made his vehicle stand out even amongst high end modified cars. Despite a wide variety of aesthetic and performance enhancements, the car is far from done. The list for planned upgrades grows and he continues to set his sights on a Best in Show at some of this years events. Last year Chris took part in MPact, Bimmerfest East, Tuner Evolution and the King Mitsubishi Mega Meet.
