

Steven Chan | Timeless Motor Group | 2009 Z4 E89

Biography:

Started in the automotive scene in Southern California in 2008 with a 2004 Mazda 6, but it all really begins in 2011 when Steven bought the 2009 BMW Z4. Shortly after the car was purchased the car was featured in 3 car shows the following year. With only being in the scene for one year, the E89 Z4 is one of the rarest modified BMW z4's in the east coast.

As 2013 went by, Steven helped promote and represented VMR Wheels in the east coast events like Bimmerfest East. Through these events Steven was able to connect with LIQUI-MOLY at MPACT and further help promote the brand through shows like H2Oi and other social media outlets making the events more successful.
